For transportation and erection we can recommend you experienced companies, if you are in need of. These costs are in addition to the purchase price.

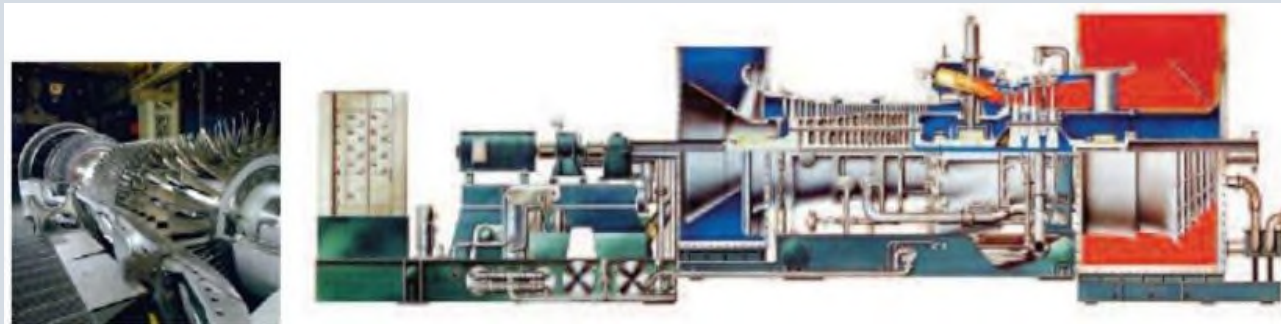

If you are interested, we need a Letter of Interest, a Proof of Funds, a confirmation of our commission, and the name of the country of destination.

After that, and a NCNDA, you will get further information, and we can arrange a visit (inspection) at the place of storage.

If you agree, I will send you the address of the owner. So you can communicate with the owner of the power plant or communicate via e-mail.

We look forward to your reply

Karl Steiner
